### Coaster Call®

- Rechargeable
- Patented stack charging
- Shock absorbing bumper
- Customizable label

### AdverTeaser™

- Rechargeable
- Removable paddle insert
- 4 message light notification

### Cool Blue™

- Rechargeable
- Patented stack charging
- Shock absorbing bumper
- Customizable label

## PATIENT & FAMILY PAGING

### Patient Paging

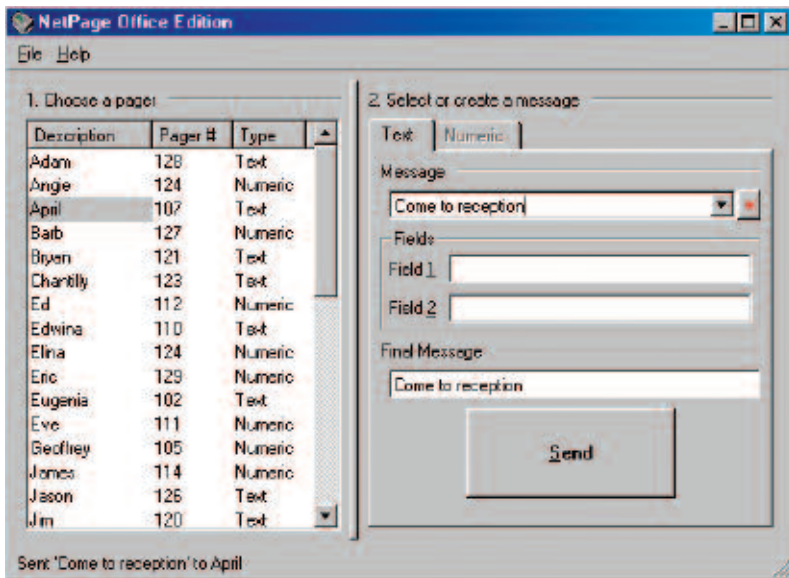

Onsite pagers are used in healthcare facilities across the nation to streamline patient flow, improve service and eliminate overhead paging. Our easy-to-use systems are allowing facilities to easily adhere to HIPAA regulations requiring patient confidentiality when notifying patients waiting for treatment. Ideal for:

- Medical Offices
- Admission
- Day Surgery
- Emergency Room
- Radiology
- Pharmacy
- Laboratory

### Family Paging

Give waiting family members the peace-of-mind that they can be reached immediately when they leave the waiting area. This allows them to freely visit other areas of the hospital such as: the cafeteria, chapel, gift shop or outdoors.

Our silent paging systems will help your staff immediately notify family members and expedite the consultation process.

## PC STAFF PAGING

Our PC paging solution, NetPage, makes onsite paging available from any PC in your facility. Choose the recipient, type your message and click send. It's that easy. Enable your colleagues to spend more time doing their job and less time tracking down coworkers. NetPage keeps your staff connected, efficient and productive.

### Benefits

- **Instant Communication** - messages delivered immediately
- **Increased Productivity** - get more accomplished instead of searching for coworkers
- **Descriptive messaging** - be specific with messaging
- **Professional Atmosphere** - silent messaging
- **Eliminate Monthly Fees** - drop your wide area paging for staff members who don't need it

### Features

- Up to 1 mile range (2 watt transmitter power)
- Message memory - software remembers custom messages
- Supports up to 9,999 alphanumeric pagers
- Can send up to 255 characters to alphanumeric pagers only
- Supports group paging

### Alphanumeric Pager

- 250 character display
- Multiple alert modes
- Auto off/on feature
- Operates on 1 AAA battery
- FCC and CE approved

**Butler II**  
Five Button Model

**Butler II**  
One Button Model

## Alphanumeric Pager

- 250 character display
- Multiple alert modes
- Auto off/on feature
- Operates on 1 AAA battery
- FCC and CE approved

## ROOM TO ROOM STAFF PAGING

Improve communication and provide superior service levels with the Butler II room-to-room paging system. Install a Butler II in multiple rooms to allow your staff to page coworkers with specific messages, all with the push of a button. The Butler can be mounted to virtually any surface and requires no wiring or power outlets.

### Benefits

- **Improve Patient Flow** – immediately notify staff when they are needed allowing patients to be treated quickly
- **Enhance Patient Privacy** – discreetly call staff for sensitive procedures
- **Maintain Professional Atmosphere** – communicate effectively with silent messaging

### Features

- **Notification Acknowledgement** – Allows the recipient of a page to confirm receipt at the unit
- **Disable Code** – Staff may disable transmitters
- **Low Battery Indicator** – Sends a page upon low battery
- **Auto On/Off** – Transmitter can be programmed to only send pages during specified times each day
- **UHF Frequency** – Increased penetration of walls and floors
- **Dry Contact** – One contact can monitor doors or be used as a doorbell notification
- **Range** – Pages up to 1/4 mile
- **Scalable** – Transmitters can be added to your system at any time
- **Battery** – Uses 3 AA batteries for 6-12 months - depending on usage
- **Compact Size** – 1.5" w x 7" h x .875" d

## ELECTRONIC PATIENT SURVEY SYSTEM

The Informant allows you to gather family and patient feedback and review the responses the very next morning. Our electronic comment card provides a quick yet economical way to monitor service levels and patient opinions. Our survey consultants will provide you with assistance in developing and implementing your survey. Each tray may run up to 4 surveys per day and can hold up to 300 responses before they must be downloaded from the survey device.

### Benefits

- **High Response Rate** – Our systems receives over 70% response rate
- **Reduced Cost** – Our systems are a fraction of the cost of traditional paper surveys
- **Daily Survey Results** – Unlike paper surveys, which take several months, our results can be viewed daily
- **Easy-to-Use** – Our systems are a high-tech solution with user-friendly technology

### Features

- **Daily Automated Data Transfer**
  - Our docking station automatically transfers data nightly
  - Features a dial-up analog line or ethernet lines for data transfer
  - Confidential data is transferred to a secured database
- **Complete Survey Design**
  - Professional design staff will customize a survey to meet your needs
  - Surveys are designed to capture satisfaction ratings, demographics, and email addresses
  - Surveys can be changed or updated at any time
- **Daily and Weekly Reporting**
  - Establish Benchmark Performance Ratings for each department
  - Daily Summaries detail performance
  - Multiple-Location Summaries can be broken down by area or region
  - All raw data can be exported for use with other reporting applications
